CARE. RECYCLE. CREATE.

TAKING CARE OF THE EARTH

You can make plantable seed paper using recycled paper and seeds. Making paper can seem daunting, but with the right tools, a little patience, and some patience, you can create something truly unique.

SUPPLIES

- Crumpled paper
- A few sheets of paper can make a few paper sheets, or combine paper, additional paper to fill any gaps between the recycled paper
- Newspaper: paper can be used for small items or to keep paper. Cut a few strips of paper into small pieces for the paper. Be sure to use a paper punch to ensure the paper is cut properly.
- Wire, crochet, or a variety of other materials.
- Newspaper, cotton, wool, or other natural fibers.

STEP 1: PREPARE THE PAPER SCRAPS

SCRAP PAPER SCRAP, RAIN, WATER

1. Cut or crumple paper down to sheets.
2. Trim and fold, and keep the paper.
3. Make several pieces of paper and fold each piece of paper. Place the paper in the bowl of water, and let it sit for a few hours.
4. Mix the paper with water, and let it sit for a few hours. mix until the paper is wet.

STEP 2: CREATE THE PAPER PULP

SCRAP PAPER SCRAP, SILVER, LARGE CUP

1. Put your screen in the bowl of the crumpled paper and sift the paper, allowing the water to pass through.
2. Use the paper punch to punch holes in the paper. Use a variety of hole sizes, if desired.
3. Use the paper punch to punch holes in the paper. Use a variety of hole sizes, if desired.

STEP 3: CREATE THE PAPER SHEETS

SCRAP PAPER SCRAP, SIVLE, LARGE BOWL

1. Roll the crumpled paper into a ball or a small pile of paper. Place the paper in the bowl of water and mix until the paper is wet.
2. Use the paper punch to punch holes in the paper. Use a variety of hole sizes, if desired.
3. Use the paper punch to punch holes in the paper. Use a variety of hole sizes, if desired.

STEP 4: ADD THE SEEDS AND PREPARE THE PAPER TO DRY

SCRAP PAPER SCRAP, SEEDS

1. Add your seeds to the paper, and place the paper in the bowl of water. Mix until the paper is wet.
2. Use the paper punch to punch holes in the paper. Use a variety of hole sizes, if desired.
3. Use the paper punch to punch holes in the paper. Use a variety of hole sizes, if desired.

STEP 5: DRYING

1. Dry your paper on a flat surface, or hang it to dry. Be sure to use a variety of hole sizes, if desired.
2. Use the paper punch to punch holes in the paper. Use a variety of hole sizes, if desired.
3. Use the paper punch to punch holes in the paper. Use a variety of hole sizes, if desired.

STEP 6: WRITE A SEED PAPER LETTER!

1. Choose your paper dry, and send a few from a fairly regular form and set them down that they can print your paper for a beautiful bouquet!
