

## Leventhal-Sidman Center

Effective February 4, 2019

The George Schultz Fitness Center and newly renovated locker rooms are now open. We hope you love it as much as we do! As a reminder, construction on the exciting new Winn Family & Wellness Center will start on Monday, February 4. During this time, the two floors across from the basketball gym will close, with the exception of the Group Fit Studio and access to the track, through June, 2019.

Throughout the next few months, a modified family gym will be located in the basketball gym and will be available for families to enjoy from 4-6pm weekdays and 9:30am-close on weekends. A new modular space will be available as an additional indoor play space for children (coming later in February).

*During construction, babysitting will be located in the Gallery in the main lobby.*

The brand-new Family Wing will be located on the same level as the basketball gym. Imagine fully-redesigned and re-imagined toddler and kids' gyms; new and expanded creative spaces for preschool and camps; and enrichment programs that will bring a greatly expanded selection of quality programming. The Wellness Wing will be located on the second level and will include a new Group Fitness studio, a tranquil Mind & Body studio, a Pilates studio, and a welcoming gathering space for users to connect before classes. We also will have a new symposium space which will enable expanded us to host additional programs. We are excited to welcome you into these new spaces June 2019.

Don't forget we also have a wonderful selection of events and activities for families to participate. You can see it all here: [bostonjcc.org/newtonevents](http://bostonjcc.org/newtonevents)

Check your Weekly Construction email this Sunday for more exciting details!
